Ben Burr Trail *Washington*

Ben Burr Trail

Washington

Spokane's Benn Burr Trail runs along a former interurban rail corridor in the southeastern part of the city, providing an off-road

Far from the main stretch of the trail, an additional 0.5-mile trail in Moran Prairie is also called the Ben Burr Trail. This section travels through open shadeless wetlands and grassland fields. This trail is one day hoped to connect to the main section of the trail along the neighboring railroad corridor.

Spokane's Benn Burr Trail runs along a former interurban rail corridor in the southeastern part of the city, providing an off-road link between Liberty Park, Underhill Park, and the popular and lengthy [Centennial Trail](#) along the Spokane River. In between are old neighborhoods on tree-lined streets. Equally tree-lined is the trail corridor, making for a pleasant stroll.

While originally built as an unpaved pathway between the two city parks, the trail has been upgraded to an asphalt surface and extended to reach the river; the newer segment on the north end does require trail users to make slight detours to use crosswalks across some busy streets, although the scenic river views at the end provide a nice consolation prize.

Ben Burr Trail

Washington

States: Washington

Counties: Spokane

Length: 3miles

Trail end points: Centennial Trail (North of E Spokane Falls Blvd.) to East 57th Avenue (Moran Prairie)

Trail surfaces: Asphalt, Boardwalk

Trail category: Rail-Trail

Trail activities: Bike, Inline

Skating, Wheelchair Accessible, Walking
